Aims and Scope

JNP, the Journal for Nurse Practitioners, offers high-quality, peer-reviewed clinical articles, original research, continuing education, and departments that help practitioners excel as providers of primary and acute care across the lifespan. Each issue meets their practice needs and encourages discussion and feedback with thought-provoking articles on controversial issues and topics. JNP supports advocacy by demonstrating the role that policy plays in shaping practice and delivering outcomes.

The journal is published 10 times per year and can be found online at www.npjjournal.org. The journal is included in Scopus, CINAHL, and the Journal Citation Reports published by Clarivate Analytics.

Author Guidelines are available at www.npjjournal.org
